ELECTROBITZ EVENT REPORT (31st Aug and 1st sept 2018)

Objective of the Event

To make them know the current scenario of the technology and happenings in the world.

Round One(Electro X) – It was a crossword puzzle round which has three different sets of questions like fill in the blanks, identifying the components, naming the components by seeing the pictures which was projected in the slides. At the time of correcting the crosswords, one volunteer was telling the answers using the PPT(slides) which consisted of question with answers. This round consisted of 40 questions. Totally 15 teams were shortlisted for the next round

Round Two was a Question and Answer round which included technical and some non-technical questions. The name of this round was **Mind Tweezer**. The questions were shown in the slides by using projector. This round consisted of 40 questions. For each question one minute was given. The round was completed within 45 minutes. After that the answer papers were collected from the participants and were corrected. At the time of correcting the papers, one volunteer was telling the answers using the PPT(slides) which consisted of question with answers and explanations related to answers. The checking of the answer papers and explaining answers of the questions (in slides) was completed within 10 minutes. Then the top 6 scoring teams were selected for the 3rd round (the final round).

Round Three(Talk over) -It was a Debate between three pairs of team on three different topics, in each pair one was selected (totally 3 teams) for the final group discussion round. Finally there was a prize and certificate distribution for a winner and a runner.
