

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

IETE SOCIETY

EVENT REPORT

EVENT NAME: Agile Technology

DATE OF THE EVENT: 22nd July 2019

VENUE: OP Hall

A seminar on "AGILE TECHNOLOGY" was organised by IETE Society of SRM Ramapuram campus on 22nd of July 2019. The seminar was delivered by SUGANTHI ALAGUMALAI, an Enterprise Agile Coaching and Training Consultant from USA. She has three academic degrees and currently working on 2 books on the practical implementation of Kanban. She gave an enthusiastic speech on importance of being "agile" to keep up with the sprinting globe. It was a requisite oration for current students to be on toes for gleaming world. Her mantra of "incremental" success for future is sure a right term for today's youngsters.

Suganthi Alagumalai is an internationally experienced creative and transformational leader with proven track record in leading people, driving transformational change and delivering business value in complex business environments.

She is an Enterprise Agile Coaching and Training Consultant. Suganthi Alagumalai has three academic degrees, MBA in IT Management from San Jose State University, MS in Systems Engineering from San Jose State University, and B.E in Electronics and Communication Engineering from Bharathidasan University.

She holds several certifications from Lean Kanban University, Scaled Agile, Scrum Alliance, Project Management Institute, and others in the agile and project management space.

She is an international speaker at several Kanban and Scrum conferences and Meet Ups in Agile. She is working on 2 books on the practical implementation of Kanban.

She has over 15 years of experience with different organizations in various domains from banking to health care and the companies sizes range from 36 to 100,000. She has done successful transformations providing coaching and training to McKesson, HSBC, Micron, Cisco, Kaiser, American Express, Humana, CTS, and TCS.

Specialties: Project Management & Tracking, Strategic Business Planning, Interdepartmental Coordination, Management & Administration, Reporting & Reengineering, Change Management, Data mining & Data Warehousing, Resource Management, Ecommerce & Client Relations, Process Analysis & Redesign, Cross-Functional Team Management, Project & delivery Methodologies, Procurement / Contract Management, Budgeting, Project Risk & Scope, QA, Metrics, Monitoring, & Solutions, Mobile, Technology Management, Customer Service

OBJECTIVES OF THE EVENT:

- To help students tackle with failures.
- To analyse the cause and differentiate between failures.
- To work on and motivate.
- To "always repeat" until success.
