ELSPREE EVENT REPORT

Executive Summary:

Round One was a question and answer round which consisted of general knowledge and aptitude.

Round Two was a Question and Answer round which included technical questions.

Round Three was an extempore session on topics related to current affairs and technology.

Event Content:

Round 1:

The questions were shown in the slides by using projector. This event consisted of 30 questions. The participants were given blank papers for writing the answers. One of the volunteers (IE member) was dictating the questions by seeing the slides. For each question one minute was given. The round was completed within 45 minutes. After that the answer papers were collected from the participants.

Then the answers were corrected by the volunteers. At the time of correcting the papers, one volunteer was telling the answers using the PPT(slides) which consisted of question with answers and some other things(explanation) related to answers. The checking of the answer papers and explaining answers of the questions (in slides) was completed within 10 minutes. Then the top 20 scoring teams were selected for the 2nd round.

Objective of the Event

To test them on their general knowledge and aptitude.

Round 2:

The questions were shown in the slides by using projector. This event consisted of 30 questions. The participants were given blank papers for writing the answers. One of the volunteers (IE member) was dictating the questions by seeing the slides. For each question one minute was given. The round was completed within 45 minutes. After that the answer papers were collected from the participants.

Then the answers were corrected by the volunteers. At the time of correcting the papers, one volunteer was telling the answers using the PPT (slides) which consisted of question with answers and some other things(explanation) related to answers. The checking of the answer papers and explaining answers of the questions (in slides) was completed within 10 minutes. Then the top 10 scoring teams were selected for the 3rd round (the final round).

Objective of the Event

To test them on their technical knowledge.

Round 3:

The topics of the extempore was decided by the volunteers (IE members) and the topics were written on chits of paper and was given to the qualifiers of the 2nd round. The participants had to choose a chit from the random chits and had to speak on the topic assigned to them for a certain time. One of the volunteers (IE member) was calling out the participants when their turn arrived and confirmed the topic assigned to them. Each participant had to speak for about 10 minutes, 5 minutes each for a team of 2. The round was completed within 60 minutes. The participants were evaluated based on – time spoken and the quality of content.

Then the participants were evaluated by the volunteers. The winners of the event were decided and was announced along with the reason for the judgement.

Objective of the Event

To examine the participants based on their knowledge on current affairs while eradicating their stage fear.
