

The Camogenics Club of SRMIST (E&T) hosted the ninth iteration of the two-day "MONOCLE" National level photography and film festival on March 24, 2023. There are seven online and two physical events.

**Bootcamp:** The participants received basic photography instruction from the club members. There were 56 contestants in all, with a team commander for each subteam. There are 65 techniques utilised, including as colour adjustments, leading lines, the rule of thirds, and the golden ratio. We also practiced light painting hands-on.

**Workshop on making short films:**

In association with the SRM Film Tech and Viscom departments, the Camogenics Club held a workshop on making short films.

Each of the 44 contestants' four teams was given a distinct movie script.

Following the guidelines set forth by the film tech permits, four teams were able to shoot and gain experience in a range of disciplines, such as graphic design, sound editing, dubbing, and directing. their teams were supervised by faculty and students studying film technology while they developed their abilities. The HoD, Dr. Prabhakaran, offered remarks and recommendations as the four teams' final films, including WHO, GUILT, FIRST CLASS ROOM, and others, were screened in a cinema.

We also like to thank the staff members and the Filmtech student coordinators for working around their hectic academic schedules to facilitate the event.

We appreciate the opportunity to host the event from our management, the deans of S&H and E&T, and the head of filmtech, HoD.

The chief guest of the event was Mr. Ranjit, the experimental film maker, after Mr. C Aravindan, the coordinator, had greeted the dignitaries and bestowed awards. The chief guest and the DEAN present the participants with their prizes.
