DATE OF THE SYMPOSIUM

5th March 2024

ABOUT BIORGANZA

We are thrilled to host the Biorganza2K24K24 symposium, organized by the Department of Biomedical Engineering since 2022. This symposium serves as a platform for students, researchers, and industry professionals to come together and share their latest advancements, innovations, and ideas shaping the future of biomedical engineering.

This year's Biorganza promises to be an exciting event filled with thought-provoking presentations, interactive discussions, and opportunities to connect with like-minded individuals. We encourage you to actively participate, ask questions, and engage with the diverse range of topics and perspectives presented throughout the symposium.

We look forward to a stimulating and enriching experience for all attendees!

SYMPOSIUM POSTER

ABOUT DEPARTMENT

Established in 2020, The department offers a world-class setting for cross-disciplinary biomedical engineering research and collaborate with medical experts to create technologies that enhance and save lives by fusing a wide range of engineering disciplines with human biology and medicine. The Institute's primary research goals are to create innovative medical devices, systems, and technologies that can significantly improve healthcare, as well as to use new engineering technologies in clinical settings. (e.g., prosthetic devices, imaging systems, and biopharmaceuticals).

SPONSORSHIP DETAILS

PLATINUM SPONSOR

Prince Pictures is a media company engaged in the business of producing and distributing Indian films focusing primarily on the south India market. The company has produced and distributed several films and aims to create content that is engaging for the young audience of today and relevant from a sociocultural perspective. Singam 2, Sardar, Mr. X are a sample list of films produced by Prince Pictures

Prince Pictures Address: 27 Crescent Park Street, T Nagar, Chennai

TECHNICAL EVENTS

PAPER PRESENTATION

A paper presentation involves the oral communication of a research paper or academic work to an audience. Typically, it is part of conferences, seminars, or academic events where scholars, researchers, or students share their findings, insights, and contributions within a specific field of study. Presenters articulate key points, methodologies, results, and conclusions from their papers, using visual aids such as slides to enhance understanding. Effective paper presentations require clear communication skills, engaging delivery, and the ability to address questions or feedback from the audience. It serves as a platform for knowledge dissemination, fostering academic discourse, and facilitating the exchange of ideas within the scholarly community.

THE TOPICS FOR THE PAPER PRESENTATION ARE :

- Sustainable Engineering
- Signal/image processing.
- Genetic engineering
- Transportation engineering
- Cyber security
- Virtual reality and augmented reality
- Renewable energy
- Internet of things
- stem cell Engineering
- Nanotechnology
- Biometrics
- Microelectronics
- Neurotic robots
- Abnormality detection

RULES AND REGULATIONS

1. The team can consist of 1 to 3 members.
2. Abstract should not exceed more than 250 words.
3. Abstract to be submitted in the respective link.
4. Team will get 10 minutes presentation time and paper should not exceed more than 15 pages.
5. Soft copy of the submitted papers and PowerPoint presentation must be in the .docx format.
6. Paper must contain index, list of figures, list of tables, abstract, introduction, methodology, conclusion, result and reference.
7. Selected abstracts will be promoted for paper presentation.
8. The paper should be in IEEE format.
9. Time limit should be strictly followed and extensions may lead to deduction of mark.

POSTER PRESENTATION

A poster presentation is a visual and concise method of communicating research findings, projects, or academic work at conferences, symposiums, or other events. Instead of delivering information orally as in a paper presentation, presenters use a large poster board to display key aspects of their work, such as research objectives, methodologies, results, and conclusions. The poster typically includes visual elements such as graphs, charts, images, and text to convey information effectively. Presenters stand by their posters to engage with viewers, answer questions, and discuss the details of their work. Poster presentations offer a more interactive and informal way for researchers, students, and professionals to share their work with a diverse audience, encouraging networking and collaboration within the academic and professional community.

TECHNICAL QUIZ

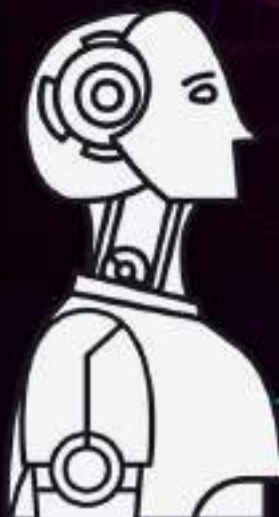

A technical quiz is an assessment tool designed to evaluate participants' knowledge and understanding of specific technical subjects or domains. These quizzes often cover topics related to science, technology, engineering, and mathematics (STEM). Questions in a technical quiz can range from theoretical concepts to practical problem-solving scenarios, testing participants' grasp of principles, methodologies, and application of technical knowledge. Technical quizzes are commonly used in academic settings, technical competitions, or job interviews to gauge the proficiency of individuals in a particular field. The questions may cover a broad spectrum of topics within a specific domain, and participants are expected to provide accurate and precise answers to showcase their expertise in the subject matter.

CROSSWORD

A crossword is a word puzzle that typically takes the form of a square or rectangular grid of white and black shaded squares. The goal is to fill the white squares with letters, forming words or phrases, by solving clues that are usually provided for each entry. The clues can be straightforward definitions, wordplay, or a combination of both. Crossword puzzles come in various difficulty levels, ranging from easy to challenging, and cover a wide range of topics, from general knowledge to specialized themes. They are a popular pastime in newspapers, magazines, and online platforms, serving as a form of entertainment and mental exercise. The structure of a crossword grid allows for interlocking words, adding an extra layer of complexity and making solving the puzzle a satisfying and rewarding experience.

IDEATHON

An ideathon is an event or competition focused on generating innovative ideas and solutions to specific challenges or problems within a set timeframe. It typically brings together individuals or teams with diverse backgrounds, skills, and expertise to brainstorm, collaborate, and pitch creative ideas. Participants often work intensively, leveraging their collective knowledge to develop unique and viable solutions. Ideathons can be organized in various formats, such as hackathons or workshops, and may cover a wide range of themes, including technology, social issues, business, and more. The goal is to foster creativity, encourage out-of-the-box thinking, and produce actionable concepts that may lead to the development of new products, services, or initiatives. These events are common in the entrepreneurial and innovation ecosystem, providing a platform for individuals to showcase their problem-solving skills and entrepreneurial spirit.

CONNEXIONS

Get ready to test your wit and unleash your creativity at Connexions: The Word Guessing Game Event! This exciting event is all about putting your thinking cap on and making unexpected connections. We'll present you with a series of intriguing images, and it's up to you to decipher the hidden word that links them all.

The poster features a dark, starry night sky with a silhouette of a person pointing towards a bright nebula. At the top center is a caduceus with a red, multi-limbed creature hanging from it. The text is arranged vertically, starting with the university logo, followed by the department name, the event name in a stylized font, and the main title in large, glowing letters. At the bottom, there is a QR code, an Instagram handle, and contact information for student coordinators.

BLOCK AND TACKLE & SHIPWRECK

Calling all wordsmiths and quick thinkers! Are you ready to Block & Tackle your way to victory? This unique event throws a playful twist on traditional debate, challenging you to think on your feet and master the art of persuasion with a switch.

A jaw-dropping event of verbal wrestles of two participants against each other in an imaginary ship debating their way to convince the captain of the ship metaphorically for the last life jacket in the ship and to victory! So, gather your courage, sharpen your tongue, and prepare your way to the top!
